

## High Altitude Flying and the Use of Oxygen

Even if you are not flying at oxygen required altitudes, occasionally you may be above 12500' for longer than 30 mins or above 8000' for prolonged periods. There are other recommendations for the use of oxygen. Come to this seminar to learn more!

**Directions:** The meeting will take place at Aviation Training Center (ATC), on the 3rd Floor of the ACE Aviation Building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
